

Product Texts

LEXAN EXL1433T polycarbonate (PC) siloxane copolymer resin is a UV stabilized transparent injection molding grade. This resin offers excellent low temperature (-30 C) ductility in combination with medium flow characteristics and excellent processability with opportunities for shorter IM cycle times compared to standard PC. LEXAN EXL1433T resin is a UV stabilized general purpose product available in transparent and opaque colors and is an excellent candidate for a broad range of applications.
