

Product Texts

Vydyne AK8ST41 is a mineral filled, impact modified PA66 for injection molded applications.

Mechanical properties	dry / cond	Unit	Test Standard
ISO Data			
^[C] Tensile Modulus	4800 / -	MPa	ISO 527

[C]: CAMPUS

Other properties	dry / cond	Unit	Test Standard
^[C] Density	1450 / -	kg/m ³	ISO 1183

[C]: CAMPUS

Characteristics

Processing

Injection Molding

Special Characteristics

High impact or impact modified

Delivery form

Pellets

Regional Availability

North America, Europe

Additives

Release agent
