

Thermal properties	Value	Unit	Test Standard
Other Standards^[5]			
Melting temperature, 10°C/min	255	°C	DSC Instrument

S: These properties are reported by the producer according standards that are different to our defaults.

Other properties	Value	Unit	Test Standard
Other Standards^[5]			
Biobased content	30	%	
Intrinsic Viscosity	0.645	dl/g	
Color L	76	-	Nippon DP-1001 Instrument
Color b	1	-	Nippon DP-1001 Instrument

S: These properties are reported by the producer according standards that are different to our defaults.

Characteristics

Processing
Fiber Extrusion, Film Extrusion, Sheet Extrusion

Certifications
Contains renewable resources

Features
Thermal Stability

Applications
Automotive, Electrical and Electronical, Packaging

Chemical Resistance
Environmental Stress Crack Resistance

Regional Availability
North America, Europe, Asia Pacific, South and Central America, Near East/Africa
